MINDSET

A VETERAN OWNED SMALL BUSINESS

Fractional
Leadership
vCIO & vCTO

WHAT IS A FRACTIONAL LEADER?

Our technology leaders are highly skilled visionaries with a pragmatic approach who can adapt quickly to any environment. Our leaders offer a wide-range of executive level experience in their background and boast a proven track record within many organizations across the globe.

“Premier Mindset has been a great partner in supporting our staff with IT leadership and transformation efforts.”

- **Mark Marschke,
Chief Information
Officer at National
Seating & Mobility**

Why Hire One of Our Fractional Leaders?

The cost of hiring a full-time CIO or CTO is very high and most small and mid-sized businesses do not have the financial resources nor the project workload to justify employing someone with the experience and knowledge required to lead technology teams at an executive level. With our fractional leaders, you get a highly experienced expert for a limited time, which can be more cost-effective than hiring a full time CIO or CTO. Our leaders provide the same expertise and capability of a full-time CIO or CTO without overhead expense associated with adding a senior level executive.

What Do Our Fractional Leaders Deliver to You?

- Technology and Business Strategy Alignment
- IT Roadmap and IT Strategy
- Staff Skillset Evaluation
- Staff Mentoring, Evaluation and Management
- Technology Process Design and Optimization
- Technology Governance Framework Guidance
- Security and Compliance Management

You Choose the Service Offering:

- *Interim* - We can backfill a vacant C-Level, VP or Director level position for a fixed period, help in due diligence for a merger, acquisition or divestiture, and even help screen qualified candidates when the time is right to hire a permanent CIO.
- *Program / Project* - We will provide expertise on strategic projects or initiatives that require a C-Level leadership role.
